

# Dark Skies expanding

The Borrego Springs Dark Sky Coalition has certified The Springs at Borrego RV Resort as a Night Sky Friendly Business. The Springs has area lighting which minimizes glare at night.

The Coalition encourages all businesses in Borrego Springs to keep their lighting level to a minimum, rather than adopting the policy of "more is better."

Dark night skies have become a hallmark of our community and allow good stargazing by residents and visitors alike.

Borrego Springs is the only Dark Sky Community in California recognized by the International Dark Sky Association.
