Bloom Area 1 There were a lot of flowers in this area last week but the wolves have arrived on the summer journey and they have eaten most of the flowers. You should have been here last week!

Area 2: Pigs are loose in areas, stay out, the pigs are very mean during flower season

Area 3. No flowers here. They were sprayed with roundup by mistake.

Areas 4: This is the best area right now. There are four sunflowers and about 2 or 3 palm trees in bloom
